EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Walter Pledger on 3/15/07.

The application has been amended as follows:

Claim 21, Line 14, the phrase "is operable to release" is deleted and replaced with ---releases---.

1. The following is an examiner's statement of reasons for allowance: Claim 21 as now amended recites a drawer guide structure for a drawer within an article of furniture wherein the guide includes two springs both attached at one end to carrier rail and at a second end one spring is attached directly to an entrainment member while the second spring is attached to the entrainment member via a releasing mechanism. None of the prior art of record teaches or suggests two springs with one of the springs being released from the entrainment member while the other spring remains fixed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
